Changeover Switch OFF LOAD

A complete range of aesthetically designed Offload Changeover Switches with **Side Handle Operation** are available for wide range of applications in all industries where individual system requires safe & reliable transfer of power from main supply to standby supply and vice versa.

Offload Changeover Switches are supplied in powder coated steel sheet enclosures, side operated with three positions: I – O – II

Range:

Side handle Off load changeover switch- AC 22.

- 32A & 63A / 240Vac in Double Pole Version.
- 16A to 2000A / 415Vac in Four Pole Version.

Specification:

- Conforms to IS/IEC: 60947-3.

Features:

- Suitable for individual mounting (Inner mounting holes & mounting brackets are provided as part of sheet steel enclosures).
- Steel Sheet enclosure is duly powder coated for longer durable life.
- Provision for door interlocking, which ensures that the door cannot be open when the switch is in 'ON' position, thereby providing safety to human being.
- Terminations suitable for Aluminum Cables also.
- Provision of arcing contacts in current ratings 200 Amps & above.
- Fixed contacts are mounted on terminal blocks used for cable terminations. These terminal blocks are made of DMC which has superior mechanical & electrical properties.
- Any poles suitable for Neutral Selections.
