

AV Switch Fuse Changeover Switches

125A - 630A

Sailent Features

- › Quick Make & Quick Break mechanism (Spring Loaded Contacts)
- › Arc chute plates to enhance contact life
- › Suitable for both aluminum & copper termination
- › Terminal cover, source separator, phase barrier and fuse cover as standard feature
- › Body of self extinguishing fiber glass reinforced polyesters resin
- › Auxiliary contact upto 2 NO-2 NC
- › Protection against over current and short circuit faults by fuses of high rupturing capacity of 80kA rms.
- › Total safety : All moving & live parts covered
- › Conforms to IS / IEC: 60947-3

Definition & Function

HPL Switch Fuse Changeover is a manually operated 4 pole Switch Fuse with position I-O-II with backup protective devices as HRC fuses mounted in RYB phases. The switch is provided with an isolating Neutral & offers protection in position I as well as in position II to load connected to common outgoing circuit.

Advantage

The particular conception of HPL Switch Fuse Changeover, 4 pole gives the following advantages:

While breaking the circuit, guarantees sufficient air sectioning clearance.

Protection against over currents & short circuit faults by fuses of high rupturing capacity, 80 kA rms. Compact & standardised sizes for range 125 A-630A. and ideal for switch board manufacturers.

Strong endurance & resistance to heat (Tropicalised) 3 Stable positions (I-O-II) & possible switching from one to the other on load. Thereby fulfilling the role switching device with protection for two modes of supply-one from electricity board & other from standby Source - generator and providing back up protection.

Highlights

- » Quick Make & Quick Break mechanism (spring loaded contact)
- » Arc chute plates to enhance contact life
- » High Mechanical & Electrical life
- » Suitable for both aluminum & copper termination
- » Terminal cover, source separator, phase barrier and fuse cover as standard feature
- » Body of self extinguishing fiber glass reinforced polyesters resin
- » Auxiliary contact upto 2 NO-2 NC
- » Available in 3 Frame sizes
- » Protection against over current and short circuit faults by fuses of high rupturing capacity of 80kA rms.
- » Total safety : All moving & live parts covered
- » Fuse barrier between fuses

Approvals & Test

- Time tested
- Customer Accepted
- CPRI Tested
- ISO 9001 Certified

Globally Accepted
exporting to over
25 countries

Fuse Details :- (Bolted Type)

Available in 6 ratings from 125-630A with 3 poles.& Neutral switched.

Fuses are as per IS : 13703 (part 2) 1993/ IEC 269-2-1 (1987)

- » Front operation.
- » External padlockable handle with door interlocking arrangement mounted on an enclosure door or on the panel cover.
- » Pad locking arrangement can accommodate 3 pad locks for safety.

Rating Size in Amps	Size	Suitable HRC Fuse Ref
125A	A-4	LK-TCP
160A	A-4	LK-TCP
200A	A-4	LK-TSF
250A	B-1	LK-TSK
320A	B-1	LK-TSK
400A	C-1	LK-TSMS (Big)
630A	C-1	LK-TTS

Steel Enclosure

Switch fuse changeover can be supplied in sheet steel enclosure, made of thick guage steel sheet, protected with phosphate coating by seven tank system and powder coated for long life.

All enclosure are fitted with top and bottom end plates with adequately sized knockouts for cables

- Terminal Shroud & Phase barrier as standard design product
- Enclosed operating rod
- 3 lock pad lockable handle in both ON & OFF positions

Self Fire Extinguishing

Load Line Reversibility

Positive Isolation

Switch Fuse Changeover Switches

Switch Fuse Changeover Switches

Other Product Range

Load Break Switch

- Range : 63A - 3150A, 4 Pole, 415V AC
- Conforms to IS / IEC 60947-3
- Tested at CPRI Bhopal for AC-23A duty
- Total Safety- all moving and live parts covered
- Compact design
- Quick make & quick break mechanism
- Unique safety handle with door pad locking
- Available in open execution and steel sheet enclosure

Onload Changeover

- Range with Triple safety : 63 - 3150A, 4 Pole, 415 V AC as per IS / IEC 60947-3
- Silver plated current carrying parts, AC 23A
- Flexibility for termination of supply & mounting positions
- Available in open execution / steel sheet enclosure
- Auxiliary contacts upto 2NO-2NC

By Pass Switch

- Range : 125A - 1600A, 4 Pole, 415V AC
- Conforms to IS / IEC 60947-3
- Tested for AC-23A utilization category
- Total Safety- all moving and live parts covered
- Switch is designed for specific need in IT industries where UPS and servo stabilizer provides main source of supply
