

## Sunrise of a new era at HPL.

As a family run enterprise, HPL has always been high on values of technology development, quality & trust for its customers, stakeholders & nation. When we started out on this journey, all we had was a dream – a dream of development, a dream of nation building

– a dream to be a leader in Electrical. But in our heart of hearts we had a rough roadmap coupled with unflinching determination that everything was 'possible'.

Taking one incremental step at a time, our family grew both in numbers and in technical strength. Today, we are in a position where we can happily look back and reflect upon the years that were.

Now, comes the era of infinite possibilities. And we are primed to embark upon this era with pride and determination within our hearts. Our cutting edge manufacturing capabilities complement the support of a large sales and distribution network basis which spans the length and breadth of the nation. The diverse portfolio of electrical apparatus includes metering solutions, switchgears, lighting equipment and wires and cables and through these, we have catered to both retail and institutional level customers with aplomb. In an industry that has witnessed a significant spurt over the previous financial year and is expected to keep growing at larger scale in the coming years, HPL is poised to expand its geographical areas in which it sells and distributes its products to take advantage of the industry's growth curve. In fact, what we do here will also further strengthen our role and presence in the international markets.

Now, we have taken a decisive step into the future that we have envisaged for ourselves. This is what we were waiting for. 'Now' is why we started this journey. Shall continue to do what we do best and write our fates ourselves.

# new Elmo Modular Switch

- Made from fire retardant UV stabilized engineering plastic.
- Complies with BIS Standards.
- Tested upto 1 Lakh switching operations.
- Slim, Sleek & Stylish looks.
- Regulator 360° complete rotating knob & 100% Humming free.
- Glossy finish makes it dust & maintenance free.

## Other Products

ATS CM 335 Controller

## Advance Version Automatic load Transfer Switch (AV ATS)

- Total safety with phase barrier source separator & terminal cover.
- Arc chutes studded for enhanced safety against arcs.
- High thermal withstand capacity & insulation voltage.
- Remote operations.
- Maximum parameter for auto switching.

## Smart Meter

- Remote Monitoring & Controlling on real time basis.
- Comprehensive Monitoring.
- Enhanced Reports for Data Analysis.
- Tamper Proof Features.
- Demand Side Management Tool.

## Centralised Control Monitoring System (CCMS) For Street Light

- Remote Monitoring & Controlling.
- Individual / Group Controlling.
- Comprehensive Monitoring.
- Real time operation and control.
- Enhanced Computerised Reports.
- Power Theft Alert.
- SMS to maintenance staff in case of Fault.
- Many Other Advanced Features.
