Electrama 2018

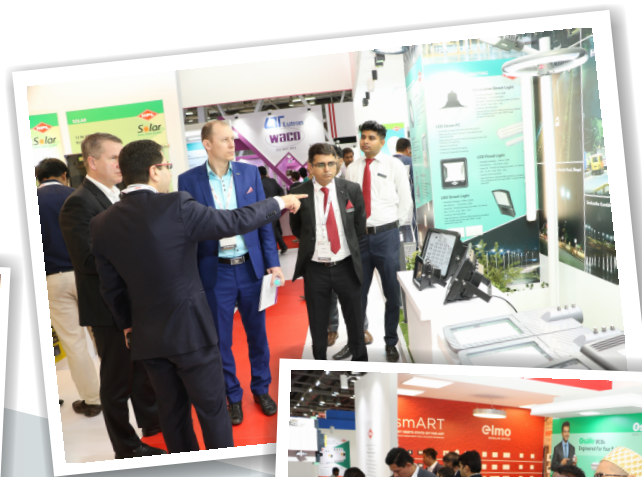

“**Innovation is taking two things that already exist and putting them together in a new way.**”

Electrama is the largest congregation of power sector ecosystem in geography. It provides peerless thought leadership platform for everything electric, it also layers the relevant audience from the world for a hands-on experience of the latest products and technology offerings, Global consumers, Consultants and industry experts from various Indian & International cities visited our stand and witnessed our efficient & futuristic product range like Osafe and Smart meters.

HPL's Products Attracted Interest Of Many International And National Delegates.

“Our newly launched products gauged maximum attention of the visitors and was enquired and praised by industry veterans, customers and experts.”

Live Demonstrations Of Product Lines

“HPL's Smart cities mission has consciously focused on creating products that help conserve energy and prove to be cost effective in long run. In a country like ours, where the need for power is continuously increasing.”

Elecrama 2018 Showstoppers

Way ahead in the league "HPL Smart Meters"

The market for meters in India was estimated to be at Rs 3,000 crore in FY 2015, with organized participants contributing to over 80 per cent of the total market. There has been a continued and visible shift from demand for traditional meters to smart metering solutions, which helps in energy management as compared to traditional meters. However, the market for meters is expected to witness explosive growth subsequent to 2022, Paving way for a robust demand for smart meters and is expected to see a double digit growth and with this HPL smart metering range will become an emerging hero product feeding the needs of indian & international market for future ready energy management solutions.

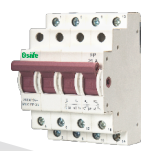

Osäfe

MCB | DB | RCCB

Let's be clear, we are not talking about any MCB here OSäfe is what most industry insiders have hailed as a monumental feat of engineering that goes way beyond the standard of regular MCBs. In the category of Miniature Circuit Breakers, this one with its exquisite design and performance is as perfect as it can get.
