Pune: HPL Group, an electrical industry player, is on a major expansion programme adding new products like Modular Switches and specialised accessories to its existing product range, that is available pan-India.

Gautam Seth, JMD-HPL, said, "HPL has always believed in bringing the best

in technology and keeping customers delighted. Our new range of Smart Modular Switches is a step forward in this direction."

"The switches that combine great looks with state-of-the-art technology have been designed to please the most discerning customers across the spectrum and keep up with our endeavour of providing nothing but the very best," Gautam Seth added.
