Corporate Profile

HPL is India's leading electric equipment manufacturer with a formidable presence across six key verticals: Metering Solutions, Switchgears, LED Lighting, Wire & Cables, Modular Switches & Solar.

Our backward integrated facilities have capabilities across product design and development, component designing, tool manufacturing and commercial production. An established brand with a proven track record of over four decades.

HPL enjoys strong recall across various customer segments. Through our innovative offerings, certified to conform to Indian and International standards such as ISI, CE and KEMA, we are proud to partner emerging India's electrical requirements.

HPL is well-placed to seize emerging opportunities

60+ Years of Industry Experience

7 State-of-art Manufacturing Facilities with 2 R&D Centers

19 Logistic centres in India & Union Territories

90+ Branch & Representative Offices

Strong Dealer & Distribution Network

Exporting to over **42** Countries

Key Strengths

Integrated Manufacturing Facilities

Located across North India in the states of Haryana and Himachal Pradesh. We have seven state-of-the-art manufacturing capabilities. These are equipped to manufacture customised products for institutional customers and undertake modifications in products for OEMs and other corporate customers as well as for the retail consumers. We manufacture all our products in-house, as well as several components used therein.

Certifications

HPL's manufacturing facilities are ISO:9001 certified for Quality Management System, ISO:14001 certified for Environmental System and OHSAS-18001 certified for implementing an occupational Health and Safety Management System. HPL products are also ISI Certified by the Bureau of Indian Standards, a mark of quality products in India.

Certain range of products have KEMA certification for energy utilization and have CE certificate to give acceptability of the products in Europe and other international markets. With these awards, accolades and certificates, HPL continues its journey towards a brighter and innovative future.

Manufacturing products and the parts

Inputs such as sheet metal components, copper components and industrial plastic moulded components are also made within the HPL facilities, reinforcing our quality edge.

Our state-of-the-art manufacturing units are equipped with:

- Ultra Modern Testing Labs
- World-Class R&D Facilities
- State-of-the-art Moulding Plants
- Latest Milling Machines

HPL Overseas Presence

“ HPL Fans are certified with CB, G MARK, SON & Sri Lanka Star Rating, SLS Marking. All certificate validates supply of HPL Fans for more than 56 countries. ”

Star Rating BLDC Fans

Ceiling fans are one of the few appliances that have withstood the test of time. They have existed since decades and are unlikely to be obsolete soon.

In a tropical country like India, you would find ceiling fans almost everywhere—be it houses, offices, or shops. Despite the invention of air conditioners, they do still serve the purpose well. In fact, fans work in tandem with ACs for an enhanced cooling effect.

But there is a dark side too. Fans are one of those unsuspecting appliances in the home which secretly consumes a large amount of energy.

Innovative AirFluence™ ABS Blade

PeakTorq™ BLDC

Point Anywhere Remote

SharqFin™ Low Noise Design

At 'HPL' we have a wider range of electric fans in premium, sub economy and economy segments (600/900/1050/1200/1400 mm).

We also have a complete range of Non ceiling fans like

- TPW Fans-300/400 mm
- Ventilation Fans-100/150/200/250/300 mm
- Exhaust Fans LD-150/225/300 mm
- Exhaust Fans HD-225/300/375/450/600 mm
- Cabin Fan-225/300 mm
- Stand Fans HD-400/450/500 mm

Most of the fans are suitable with 50/60 hz frequency.

We also have BLDC fans with 5 Star rating for highest electricity saving and better living environment.

'HPL' fans are manufacturing under the best manufacturing infrastructure.

We are using latest technology for manufacturing of 'HPL' fans parts like

- Armature winding with CNC machines
- Fan parts(Covers, Rotors) machining with CNC
- Fan parts painting with robotic technology
- Conveyourized Assembly and Packing
- Computerized testing of fans(electrical and mechanical parameters)

We are using best grade material to make HPL fans to archive Peak Air Velocity with minimum power inputs for high level of customer satisfaction.

'HPL' fans are delighting customers with innovative design and performance.
